Yealink MTouch Plus-EXT Datasheet

MTouch Plus-EXT Touch Panel

Yealink MTouch Plus-EXT is an accessory of MTouch Plus to enhance your conference control experience, which can be combined with MTouch Plus to form a multi-touch console solution, supporting up to five touch panels in different positions for simultaneous conference control. It is equipped with an 11.6-inch touchscreen and narrow bezel design, with an 80% screen-to-body ratio for better visibility and control. It uses the same design as MTouch Plus to make the meeting room cleaner and ensure a uniform touch experience in the room. Yealink MTouch Plus-EXT also has the characteristics of easy deployment, with PoE switch, only one network cable can be used to achieve power supply and data transmission. MTouch Plus-EXT has three different deployment methods, you can simply place it on the desktop, or you can fix it on the desktop or wall, and the flexible deployment allows users to get the same meeting control experience in different locations.
